

Organisational Profile

Who We Are

County Network of PLHIV in Kwale (CONPHAK) is a community-based, public benefits organization established by people living with HIV in Kwale County.

We unite and empower individuals and groups living with or affected by HIV, TB, Malaria and NCDs, partnering with Kenya Red Cross Society, AMREF Health Africa and the Kwale County Government to deliver life-saving programmes at the grassroots level.

Our programmes include HIV Retention to Care, Community TB Identification, PMTCT, Community Awareness, and Capacity Building across Kwale and Kilifi counties.
